Distinctive Glads

for
1953

.

E. A. & E. F. QUACKENBUSH

NEW CUMBERLAND, PENNA.

GREETINGS

Once more we present our annual edition of **DISTINCTIVE GLADS**. With it, we extend to our many friends and customers our sincere thanks for their patronage. We assure you that we will continue to do our utmost to furnish bulbs of the highest quality at reasonable prices.

In spite of one of the hottest and driest growing seasons we have ever experienced, we were able, through our efficient irrigation system, to supply water when needed and have produced, we believe, as fine a crop of bulbs as we have ever grown. Dry weather during the digging season and the curing by controlled temperature helped to eliminate the development of disease in storage. As a further safeguard against disease and insect pests, all bulbs have been treated with Spergon and D.D.T. since cleaning. We believe you will be pleased by the bulbs which you purchase from us.

LOCATION

All mail should be sent to New Cumberland, Pa. **However, we are growing our bulbs on our farm located on Route 441 about two miles south of Middletown, Pa. Those wishing to visit our fields during the blooming season should call at the farm.** If you use the Pennsylvania Turnpike, get off at the Harrisburg East Exit and go toward Lancaster until you reach Middletown. Turn right on Route 441 in Middletown. The greatest number of different varieties will probably be in bloom during the period from August 15 to September 1.

CLASSIFICATION

With our description of each variety we indicate a three digit number in parenthesis. This is the classification of the variety for show purposes according to the schedule of the North American Gladiolus Council. The first digit indicates the size. The second and third digits indicate the color classification.

VARIETIES

We believe each variety listed in our catalog has merit and is worthy of your consideration. As to whether or not you will like a particular variety will depend on your personal preferences and the purpose for which you wish to use the flowers. For this and other reasons, we make no attempt to indicate a list of the best. However, we do say that our experience with Spic and Span and Clarence D. Fortnam tends to disprove the theory held by some that ruffled varieties do not open well when cut in tight bud. In our opinion, these two should be in any list of the best ten, regardless of the purpose for which the flowers are to be used.

KUHN AND KADEL VARIETIES

We are growing and distributing the originations of Chester and Dorothea Kuhn as well as the originations of Byron R. Kadel. These varieties are listed at retail in our catalog. We will quote wholesale prices to catalogers and commercial growers on request. In Canada, these varieties may be purchased from Willow Acres, Bowmanville, Ontario.

OUR GUARANTEE

All our stock is guaranteed to be healthy, vigorous, free from thrips, and true to name. **You must be satisfied.** If any stock is unsatisfactory, write us at once and we will try to satisfy you. If you like our bulbs and our service, tell your friends.

PLEASE READ CAREFULLY BEFORE ORDERING

All quotations are subject to previous sale. We urge that you place your orders early so that you may not be disappointed. Each year we are unable to fill late orders for a number of varieties. **No orders for bulblets will be accepted after April 1** as we expect to be planting bulblet stock by that time. **We do not care to accept orders for bulbs after May 1, except for mixtures**, as many varieties will be planted by that time. Orders are segregated as soon as possible after being received but will not be shipped until after danger of freezing is past, unless you request otherwise. However, bulbs can be sent any time desired. No substitutions will be made without your permission. If we are out of a variety you order, your money will be refunded unless you give us permission to make a substitution in size or variety. Cultural directions will be included with all orders.

ORDERS

Orders from the retail list amounting to \$2.00 or more will be prepaid to points in the United States. We prefer not to receive orders amounting to less than \$2.00. If such orders are sent, please include a fee of 25 cents to cover the cost of postage and packing. Prices as indicated in the quantity list are not prepaid, but are F. O. B. Middletown, Pennsylvania. If you wish to order part from the retail list and part from the quantity list, we will send the order transportation collect and will include extras or overcounts to make up for the transportation on the retail items. **WHERE ALL OR A PART OF THE ORDER IS FROM THE QUANTITY LIST, PLEASE DO NOT SEND MONEY TO COVER TRANSPORTATION COSTS. IT IS IMPOSSIBLE FOR US TO ESTIMATE THE COST OF TRANSPORTATION. PLEASE WAIT AND PAY THE TRANSPORTATION CHARGES WHEN THE BULBS ARE RECEIVED.**

Where a variety is listed at 2 for 20 cents or 2 for 25 cents, etc., please do not order a smaller number at a lower price. Five bulbs will be sold at one-half the price of ten, but no single item will be accepted for less than 20 cents except when so quoted. Where no 10 price is indicated, it may be found by multiplying the price of a single bulb by 8.

Where bulblets are sold by the packet, 25 to 50 or more will be included in each packet. We will give good value.

Do not ask for special quotations unless you have a large order. Our prices are very low for the high quality bulbs offered. However, we are glad to furnish special quotations to jobbers, growers, and others purchasing in large quantities.

DISCOUNTS

A discount of 5% in other bulbs will be allowed on cash orders from the retail list amounting to from \$3.00 to \$10.00. On such orders amounting to more than \$10.00 a discount of 10% in other bulbs will be allowed. These discounts do not apply to "collections," to items marked "no discount" nor to orders from the quantity price list. We also include worthwhile extras with retail orders. The value of the extras will be in proportion to the size of the order. Suggest varieties desired as extras. If we have sufficient stock we will comply with your request. However, new introductions and varieties marked "no discount" cannot be used as extras.

BULB SIZES

All bulbs listed as large size are $1\frac{1}{4}$ inches and up, mostly $1\frac{1}{2}$ inches and up, in diameter. Medium size bulbs are $\frac{3}{4}$ to $1\frac{1}{4}$ inches in diameter. Small bulbs are $\frac{1}{4}$ to $\frac{3}{4}$ inches in diameter. For the finest blooms, large bulbs are best. Medium size bulbs of most varieties will give nice cut flowers, but the spikes are not as long as from large bulbs. Although small bulbs of many varieties will bloom, others will not. The blooms from small bulbs will be noticeably smaller in size. Bulblets seldom bloom and are often difficult or impossible to germinate. We do not recommend them except to experienced growers.

1953 INTRODUCTIONS

FROM BYRON R. KADEL.

BLOSSOMTIME (Kadel) (440) [Journey's End x Wright seedling] x [Myrna x (Mamie x New Era)] Blossomtime is more than a name—it is a description of the flower, a pure pink shading to a pure white center. It would be just as correct to call it white with a pink edge, the two colors merging imperceptibly into each other. It opens 7 large florets with 4 more showing color on a 19 bud spike. Flowerhead is 28 inches long with the floret arrangement in a regular but informal manner. It blooms in 80 days.

Among its show awards is the American Home Achievement Medal which it received at the Keystone State Society show in 1951.

Price—\$2.00 each any size bulb. 1 bulb and 10 bulblets, \$4.00.
10 bulbs, \$16.00. 10 bulbs and 100 bulblets, \$32.00.
Bulblets sold only with bulbs. (No discount.)

MIGHTY-WHITE (Kadel) (400) [(Maid of Orleans x Myrna) x (Maid of Orleans x White Triumphator)] x [Myrna x (Mamie x New Era)] Mighty-White is a large-flowering, pure white glad which opens 8 florets on an 18 bud spike. All of the unopened buds show color. The petals have good substance and are slightly ruffled.

This glad is recommended for cut flower purposes as it produces very desirable spikes from medium and number 5 bulbs. For show purposes, large bulbs should be disbudded as they frequently split and make three or four spikes. It is an early mid-season glad. Propagation is excellent.

Price—\$1.00 each any size bulb. 1 bulb and 10 bulblets, \$2.00.
10 bulbs, \$8.00. 10 bulbs and 100 bulblets, \$16.00.
Bulblets sold only with bulbs. (No discount.)

PEACE LIGHT (Kadel) (410) Gardenia x [Myrna x (Mamie x New Era)] Peace Light is a clear, medium, yellow with a soft greenish glow. Its large, wide-open florets with recurved petals are borne on a tall, strong stem. It opens 7 florets with 5 more showing color on an 18 bud spike.

While Peace Light will doubtlessly hold its own on the show table, we feel that its greatest success will be as a cut flower. This opinion is based on its color value, its excellent substance, the fact that it is a tall, vigorous grower and that it propagates readily, making strong growth from bulblets. It grows 56 inches tall and blooms in 82 days.

Its unusual phosphorescent glow attracted much attention from the hobbyists and commercial growers who saw it exhibited at the Union, Havre de Grace, and Binghamton shows last summer.

Price—\$3.00 each any size bulb. 1 bulb and 10 bulblets, \$5.00.
10 bulbs, \$24.00. 10 bulbs and 100 bulblets, \$40.00.
Bulblets sold only with bulbs. (No discount.)

FROM ALFRED L. MOSES.

SUNNY CHIP (Shafer) (421) (Orange Gold x Picardy) An outstanding orange which has both show table and commercial possibilities. Strong vigorous growth. Opens 6 with 7 showing color on an 18 bud spike. Florets nicely waved and ruffled. Blooms in 80 days.

Price—\$3.00 each any size bulb. 1 bulb and 10 bulblets, \$5.00.
Growers Unit—5 large, 2 medium, 3 small and 100 bulblets, \$40.00. Bulblets sold only with bulbs. (No discount.)

FROM E. BANE SNYDER.

DIXIE MAID (Snyder) (430) (Maryland Maid x Susquehanna) This is Seedling MDMSQ. A light salmon with cream throat. Opens 8 five-inch florets with 6 more showing color on an 18 bud spike. Florets slightly ruffled. Grows 60 inches tall. A fine prospect for the show table and as a commercial. This is a fine basket glad.

Price—\$2.00 each any size bulb. 10 bulbs, \$16.00. Bulblets 10 for \$2.00, 100 for \$16.00. (No discount.)

FROM ELMER GOVE.

KING SIZE (Hartman) (531) Descriptive material received too late to include in catalog. See descriptive leaflet enclosed with this catalog.

KING SIZE

The New Giant

KING SIZE (Hartman) (531) (California x Sir Galahad) 90-95 days.

Here is a variety that has really gone to town the past two years. It has won 4 Grand Champs, 8 Seedling Champs, plus numerous other special awards such as longest flower head, most open, largest floret, etc. In the 1951 test gardens it was the highest rated variety. In 1952 it would have won the American Home Achievement Award except that one of the judges said it was

not a commercial. However on the seedling table it scored a full point higher than the A H A winner. Afterward a New York wholesaler visiting our gardens said it was just what they were looking for in New York. However I admit that from large and jumbo bulbs it may get too large for general commercial use. But where they want the extra large ones this is it. From medium and small bulbs it will make a nice commercial grade.

This giant of giants is a clear light salmon with a few carmine lines on a rich cream throat. Opens up to 10 or more 6½-8" well placed blooms on a long head of 36-40". The plants from large bulbs consistently run from 6-6½ feet tall or over with up to 26 buds. It has good substance and opens well when cut.

The **King Size** will have a certain limited use. Its main use will be for exhibition and for the home garden. Everyone will want to see how big he can grow this variety. It certainly grows larger and taller than any variety I ever saw.

It is a good propagator and makes many average size bulblets that germinate well.

KING SIZE has been the big talk at shows where it has been exhibited and I am sure it will have tremendous popularity.

L 1/5.00, 3/14.00, 10/40.00

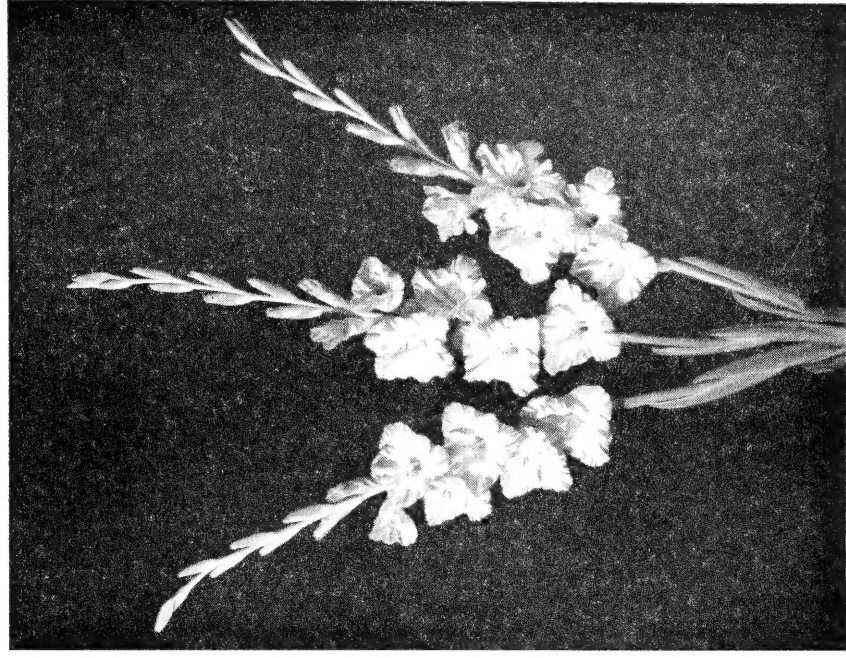

S 1/3.00, 3/8.50, 10/25.00

M 1/4.00, 3/11.00, 10/30.00

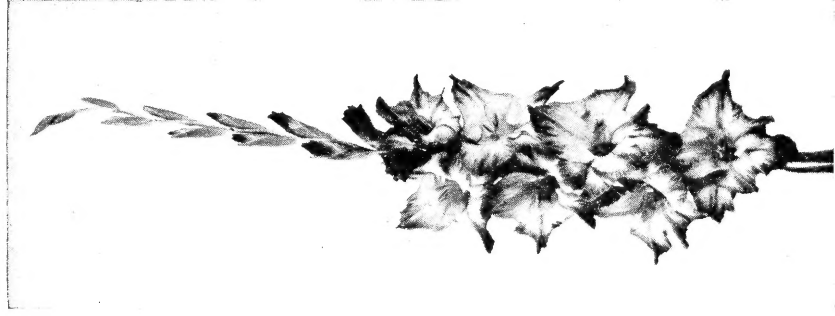

Bulblets \$1.00 each but sold only with bulbs. With each dollar's worth of bulbs bought \$5.00 worth of bulblets may be bought at \$1.00 each.

We are co-introducing **KING SIZE** with CHAMPLAIN VIEW GARDENS
